

MASTERING TEAMS

A two-day goal setting workshop for **Busy Professionals** who want to understand, manage and lead effective teams in any situation.

Do you.....

- Find it difficult to create successful teams?
- Know that you could achieve more if only they would 'do as they were told'?
- Want to master group psychology?
- Want more respect?

Would you and your company benefit if you could.....

- Easily and effectively achieve deliverables?
- Be seen to lead?
- Influence and control difficult team members?
- Demonstrate well developed interpersonal skill?

If you've answered **'YES'** to any of the above then this course is tailor made for you!

"A successful team is a group of many hands but of one mind"

Workshop overview.....

The **ability to create successful teams** is one of the key skills for leaders in the 21st century. Strong characters who are highly verbal can dominate and adversely affect team performance. **Increasing your ability to influence team dynamics** gives better results whilst earning more respect from colleagues.

Join us on this intensive 2-day workshop mastering the individual psychology of team members and group dynamics. Through an interactive blend of practical techniques and theoretical underpinning you will **'walk the talk' of team leadership.**

You should attend if.....

You want to further develop your ability to apply practical psychology within teams!

You will learn how to.....

- Use non-verbal influence in teams
- Understand different personality types for team selection
- Apply practical psychology to maintain cohesive team dynamics
- Make best use of individual members of the team
- Manage talent better
- Motivate and discipline with ease

The Workshop will cover.....

- Non-verbal influence
- Behavioural styles
- The psychology of teams
- Team selection
- Team dynamics
- Motivation
- Assertiveness

“Thank you so much. A truly fantastic learning experience and so much to take away with me. I am also confident that I will recover the time I took to attend the course within a week!”

(Nicola B, Programme Director,
Healthcare Sector)

During this workshop you will be **working within teams as well as leading teams**. Theory will be applied immediately to offer you direct and relevant experience from which to build your learning quickly and deeply. Ensuring that this dynamic workshop is **relevant and applicable to your business environment**. The practical nature of this workshop develops a walking the talk **behavioural change that if practiced becomes permanent**.

Using a theoretical framework ensures **all activities are leading edge** in terms of people management whilst an emphasis on application allows us to **test current thinking** in a safe environment as we **develop the team leadership attitude**. At the end of the workshop all of the tools and theories will be made available to course participants for their own use.
